Dear Sir:

Mr. Fu An of the Chinese Embassy in Washington has suggested that perhaps you could assist us in securing a publication of the Central Broadcasting Control Company in Nanking which lists the Chinese Radio Stations and their program schedules.

Unfortunately the title of this publication is not available to this office. However, it is hoped that on the meagre information given above you will be able to identify the publication. If so, any information as to how we may arrange to receive it regularly will be greatly appreciated.

Yours very truly,
